You also can change the display order of the document icons inside the bordered chain section. For repositioning the document icons around the screen please follow the instructions.

### Enable Drag:

Put the cursor inside the bordered document chain table (except directly on the document icon) and right-click, and select "Enable Drag". This will enable you to drag and reposition the document icon you selected anywhere within the bordered table.

About Adobe Flash Player 11.3.31.227 ...

When you have been active “Enable Drag” option, you cannot view the details of each document in the chain. In order to view these details you have to “Enable Links”

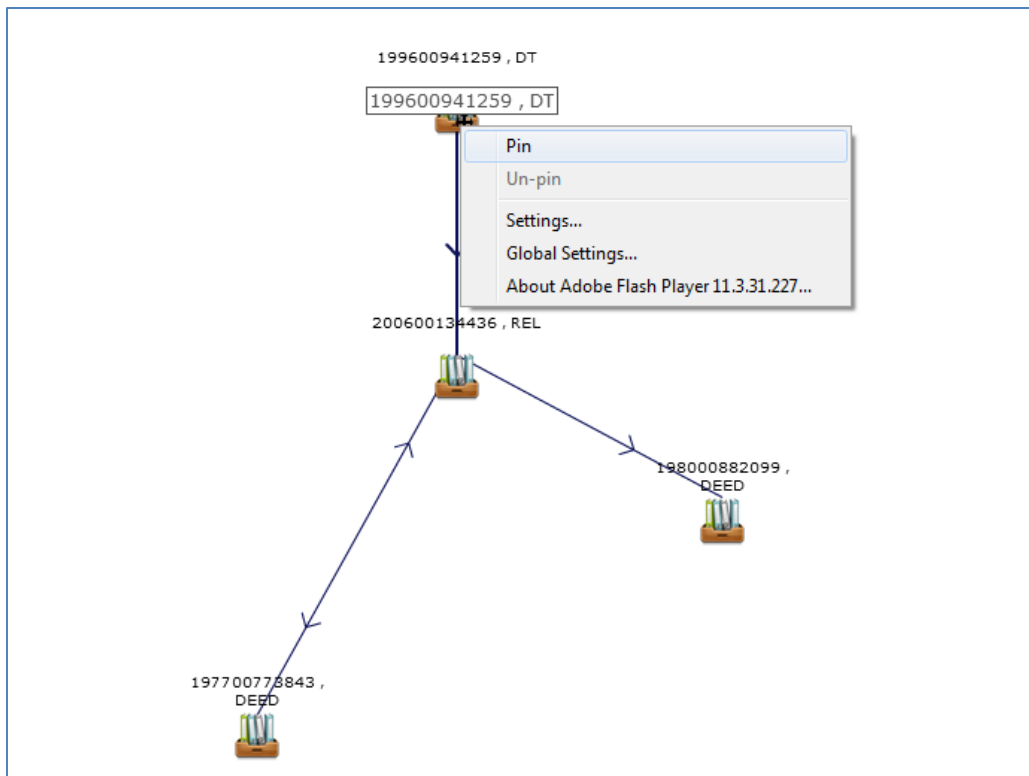

### Enable Links:

Put the cursor inside the bordered document chain table (except directly on the document icon) and right-click, and select “Enable Links”. This will enable you to click on the document icon and display the information of the Instrument you have been selected.

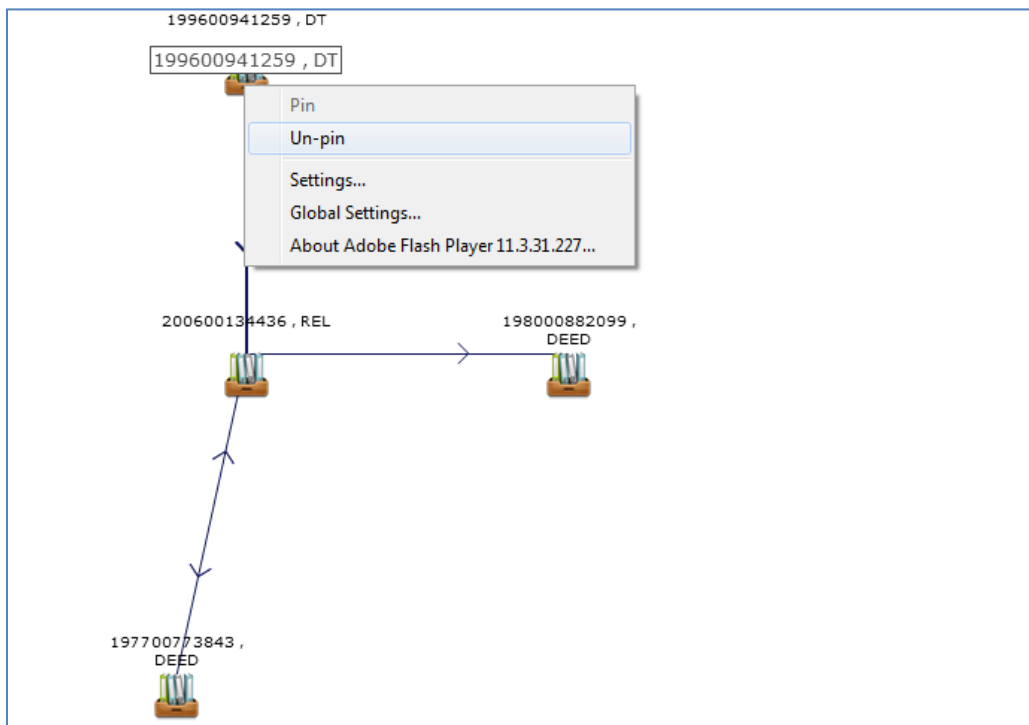

### Pin:

By right-clicking directly to the document icon, you will be able to select the “Pin” option. This will not allow you to drag the selected document icon and keep the position.

### Un-pin:

By right-clicking directly to the document icon you had been selected to “Pin”, you will be able to select “Un-pin” option. This will allow you to drag the document icon and reposition it anywhere inside the bordered chain section.

### Print Chart:

Put the cursor inside the bordered document chain table (except directly on the document icon) and right-click, and select “Print Chart”. This print chart will show all the changes you made into the Document Chain.
